

Product datasheet PS241

**MONOSAN**<sup>®</sup>

Polyclonal Rabbit anti-Rat Pancreastatin

Clone no. -

MONOSAN

---

|                           |   |
|---------------------------|---|
| Product name              | Polyclonal Rabbit anti-Rat Pancreastatin        |
| Host                      | Rabbit  |
| Applications              | IHC-fr, IHC-P (1:200-1:1,000)                   |
| Species reactivity        | Rat   |
| Conjugate                 | -   |
| Immunogen                 | Synthetic chromogranin A (aa 306-314), rat      |
| Isotype                   | -   |
| Clonality                 | Polyclonal                                      |
| Clone number              | -   |
| Size                      | 50 µl (lyoph.)                                  |
| Concentration             | n/a   |
| Format                    | -   |
| Storage buffer            | Lyophilized; reconstitute in 100 µl dist. water |
| Storage until expiry date | 2-8°C   |

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Polyclonal Rabbit anti-Rat Pancreastatin

Clone no. -

MONOSAN

**Additional info**

Pancreastatin is a fragment of chromogranin A and is produced by proteolytic processing of chromogranin A in several peptide hormone-producing cells, such as pancreatic islet cells and gut endocrine cells, as well as tumors arising from these cells. <br> Absorption with 10-100 ug immunogen per ml diluted antiserum abolishes the staining.  
Positive control: Bouin-fixed paraffin sections of rat pancreas.
