

Product datasheet PS255

MONOSAN[®]

Polyclonal Guinea Pig anti-Adrenomedullin

Clone no. -

MONOSAN

Product name	Polyclonal Guinea Pig anti-Adrenomedullin
Host	Guinea pig
Applications	IHC-fr (1:400 - 1:800)
Species reactivity	Rat
Conjugate	-
Immunogen	Synthetic rat adrenomedullin 1-6, conjugated to BSA
Isotype	-
Clonality	Polyclonal
Clone number	-
Size	50 µl
Concentration	n/a
Format	-
Storage buffer	Lyophilized; reconstitute in 100 µl dist. water
Storage until expiry date	2-8°C

FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES

Polyclonal Guinea Pig anti-Adrenomedullin

Clone no. -

MONOSAN

Additional info

Adrenomedullin is a potent vasorelaxing and hypotensive peptide, originally isolated from human pheochromocytoma. Adrenomedullin shares some homology with CGRP (calcitonin gene-related peptide). The antiserum was raised using synthetic peptides as immunogens. The antibody does not cross-react with CGRP.

Positive control: Stefanini-fixed frozen sections of rat fundus.
